## Summary

---

I develop and optimize layouts for sites. Always thinking about accessibility and user experience. Checking the results of my work for validity, download speed and cross-browser compatibility.

I participated in various projects which included different technologies. More information about my projects is available on my site ([whatislove.dev](https://whatislove.dev)) and on my GitHub page ([github.com/what1s1ove](https://github.com/what1s1ove)).
